License Agreement

"RemoPhysEmo - A Multimodal Emotion Dataset with remotely Sensed Physiological Signals via video and Radar"
v.01.04.2026

By signing this document, the user, intended as who will make use of the database, agrees to the following terms.

1. Restriction of commercial use
The user shall not use the database for any commercial purpose. Commercial purposes include, but are not limited to:
- proving the efficiency of commercial systems,
- testing commercial systems,
- using screenshots of subjects from the database in advertisements,
- selling data from the database,
- broadcasting data from the database.

2. Distribution and publications
The user shall not distribute or broadcast the database in any form. Small portions (i.e., sample images) may be used in academic publications and presentations by strictly abiding the following conditions:

A. showing with necessity: only show the real face photo if a drawing or fake face won't be enough for the illustration purpose.
B. only use the least amount of face photos for you need.
C. never link the used face photo with any possible trait of personal info (e.g., city, university, etc).
D. not all subjects agreed that their data can be cited in papers or presentations. It is required that sample images used for publications and presentations are chosen from these subject ID: 117, 120, and 122.

3. Access
The user shall only use the database after this LA has been **signed by his/her group leader or professor** (who has fixed position in the data requiring institution), and returned to the data owner at Zhejiang University. **The user must send a scanned copy of the signed and dated LA by email, in PDF format to: xiaobai.li@zju.edu.cn**, and if a student is sending the email, the email should be copied to the leader or professor who signed the LA.

With the group leader or professor signing the LA, we agree that all students and researchers that reported to the signer are eligible of using the data. The signer

should get familiar with the latest "**Data Security Law of the People's Republic of China**" "**Personal Information Protection Law of the People's Republic of China**", and other data protection regulations in the local country or region. The signer is responsible for controlling who in his/her group gets access to the data, and how the data will be stored and used properly according to related Laws and all concerned data regulations. The signer will be fully responsible if any issue rises in relation with the usage of shared data in his/her group.

4. Publications and citations

Publications include not only research papers, but also presentations for conferences or educational purposes.

All documents and research papers that report on research that use the dataset should refer it as 'RemoPhysEmo', and include a citation to:

RemoPhysEmo: A Multimodal Emotion Dataset with Remotely Sensed Physiological Signals via Video and Radar. *ACM Multimedia* (2026). (arxiv version, the citation will be updated when the publishing details are released)

The user will send an electronic copy of all papers that reference the database to: xiaobai.li@zju.edu.cn

5. Research

The user shall only use the database for scientific research, but it should not be used for commercial purpose in any form (e.g., for testing, training models which could be embedded in software or products that related to commercial plans, etc.)

6. Data Owners

The RemoPhysEmo dataset is built and owned by Prof. Xiaobai Li's 'AI for Understanding Humans (UHAI)' team, Zhejiang University, China. The RemoPhysEmo data is shared and managed by the UHAI team.

6. Changes

The UHAI team is allowed to change this LA at any time; users will be informed about changes beforehand and given the choice to opt out of the new LA. Opting out will render the previous LA void.

7. Warranty

The database comes without any warranty, UHAI cannot be held accountable for any damage (physical, financial, or otherwise) caused by the use of the database. UHAI will try to prevent any damage by keeping the database virus free.
